Project Officers

Ms Mary Anne Patton, B Sc

Ms Katherine Ogilvie, BA

Ms Jaclyn Newman, B Psych (Hons), Grad Cert Pub Hth,

Mr Sebastian Dubrovsky, BA

Mr Hamish Holewa, BSc (Com Si), BEd

Ms Amy McGrath
ACKNOWLEDGEMENT

The team wishes to sincerely thank all participants in the research project for giving so generously their time and wisdom. We would also like to thank the members of both the national panels for their energy and insights in critiquing both our methodology and our model.

We wish all practitioners, service providers, administrators and policy developers working with Indigenous peoples of Australia great success in using this model to advocate for the much needed resources for their important work.

The team wish to extend our sincere appreciation to the National Health and Research Council for their support and funding for this project.
# TABLE OF CONTENTS

- **DIAGNOSTIC GROUPS & ATTITUDE TO CANCER** ............................................. 7
