<tbody>
<tr>
<td>I</td>
<td>Medical-surgical Nursing</td>
</tr>
</tbody>
</table>

Framework for practice: critical thinking in the nursing process
- Critical thinking 4; The nursing process 5

Accountable and responsible nursing practice
- The Australian Nursing and Midwifery Council National Competency Standards 9; The Australian Nursing and Midwifery Council Code of Ethics 9; The Australian Nursing and Midwifery Council Code of Professional Conduct 9

Legal and ethical dilemmas in nursing 10

Roles of the nurse in medical-surgical nursing practice
- The nurse as caregiver 10; The nurse as educator 11; The nurse as advocate 11; The nurse as leader and manager 12; The nurse as researcher 14

**CHAPTER 2** Health and illness in the adult client

The illness-wellness continuum and high-level wellness 18
- Factors affecting health 18; Health promotion and maintenance 19; Disease and illness 21

Meeting the health needs of adults
- The young adult 25; The middle adult 27; The older adult 29

The family of the adult client
- Definitions and functions of the family 32; Family developmental stages and tasks 33; The family of the client with a chronic illness 33

**CHAPTER 3** Community-based nursing care

What is a community?
- Factors that affect the health of the community 39

Australia’s primary community health system 41
- Community nursing 42; Focus of community nursing 43

Legal, professional and practice boundaries 48

Contracting and intermittent care 48; Relationship boundaries 49

Client privacy and maintaining confidentiality 49

Being safe 49

### UNIT 2 Alterations in patterns of health

**CHAPTER 4** Nursing care of clients having surgery

Settings for surgery 58

Legal requirements
- Perioperative risk factors 59

INTERDISCIPLINARY CARE

NURSING CARE 74

**CHAPTER 5** Nursing care of clients experiencing loss, grief and death

Theories of loss and grief 91
- Freud: Psychoanalytic theory 91; Bowlby: Protest, despair and detachment 91; Engel: Acute grief, restitution and long-term grief 92; Caplan: Stress and loss 92; Kübler-Ross: Stages of coping with loss 92

Factors affecting responses to loss
- Age 92; Social support 92; Families 93; Cultural and spiritual practices 93; Rituals of mourning 94; Cultural diversity in the care of individuals with an eventually fatal condition 95

End-of-life care 95
- Nursing considerations for end-of-life care 96; Settings for end-of-life care 96; Symptom management in the dying person 97; Complementary therapies: Their use in end-of-life care 99; Support for the patient and family 99; Death 99; Care after a person dies 100; Acknowledgement of death in a hospital setting 100

INTERDISCIPLINARY CARE

NURSING CARE 100

**CHAPTER 6** Nursing care of clients with problems of substance abuse

Risk factors 110

Characteristics of substance abusers 110

Psychoactive substances and their effects
- Caffeine 111; Nicotine 111; Cannabis 112; Alcohol 113; Benzodiazepine 115; Psychostimulants 115; Opioids 118; Hallucinogens 119; Solvents 120

Other drugs
- Ketamine 120; Gamma hydroxybutyrate (GHB) 121

INTERDISCIPLINARY CARE 122
NURSING CARE
Impaired nurses
Impairment panels 132

CHAPTER 7 Nursing care of clients experiencing disasters
Definitions
Types of disasters 137; Terrorism 138; Nuclear/radioactive terrorism 139
Common disaster-related injuries
Cyclone and tsunami-related injuries 139; Thunderstorm-related injuries 139; Flood-related injuries 140; Fire-related injuries 140; Earthquake-related injuries 140; Disaster-related eye injuries 140; Blast injuries 140; Radiological dispersion bomb (dirty bomb) blast 140
INTERDISCIPLINARY CARE
NURSING CARE

UNIT 3 Pathophysiology and patterns of health

CHAPTER 8 Genetic implications of adult health nursing
Integrating genetics and genomics into nursing practice
Foundations of genetics
Cell division 158; Chromosomal alterations 159; Genes 160
Principles of inheritance
Mendelian pattern of inheritance 162; Variability in classic Mendelian patterns of inheritance 165; Multifactorial (polygenic or complex) disorders 165
INTERDISCIPLINARY CARE
NURSING CARE
Visions for the future

CHAPTER 9 Nursing care of clients experiencing pain
Neurophysiology and theories of pain
Neurophysiology 181; Ascending pain pathways 182; Inhibitory mechanisms 182; Pain theories 182
Types and characteristics of pain
Acute pain 183
Myths and misconceptions about pain
Factors affecting responses to pain
Sociocultural influences 186; Psychological status 186; Past experiences with pain 186; Source and meaning 186; Knowledge 187; Age 187; Pain and cultural diversity 188
INTERDISCIPLINARY CARE
Nonpharmacological strategies of managing pain 188; Manual therapies 189; Pharmacological strategies for managing pain 189; Duration of action 194; Routes of administration 195
NURSING CARE

CHAPTER 10 Nursing care of clients with altered fluid, electrolyte and acid–base balance
Overview of normal fluid and electrolyte balance
Body fluid composition 207; Body fluid distribution 208; Body fluid regulation 212
Changes in the older adult
Fluid and electrolyte imbalances
Fluid imbalance
The client with fluid volume deficit 214
INTERDISCIPLINARY CARE
NURSING CARE
The client with fluid volume excess 221
INTERDISCIPLINARY CARE
NURSING CARE
Sodium imbalance
Overview of normal sodium balance 225; The client with hyponatraemia 226
INTERDISCIPLINARY CARE
NURSING CARE
The client with hypernatraemia 228
INTERDISCIPLINARY CARE
NURSING CARE
Potassium imbalance
Overview of normal potassium balance 229; The client with hypokalaemia 230
INTERDISCIPLINARY CARE
NURSING CARE
The client with hyperkalaemia 235
INTERDISCIPLINARY CARE
NURSING CARE
Calcium imbalance
Overview of normal calcium balance 238; The client with hypocalcaemia 239
INTERDISCIPLINARY CARE
NURSING CARE
The client with hypercalcaemia 243
INTERDISCIPLINARY CARE
NURSING CARE
Magnesium imbalance
Overview of normal magnesium balance 245; The client with hypomagnesaemia 246
INTERDISCIPLINARY CARE
NURSING CARE
The client with hypermagnesaemia 247
INTERDISCIPLINARY CARE
NURSING CARE
Phosphate imbalance
Overview of normal phosphate balance 248; The client with hypophosphataemia 248
INTERDISCIPLINARY CARE
NURSING CARE
The client with hyperphosphataemia 249
INTERDISCIPLINARY CARE
NURSING CARE
Acid–base disorders
Regulation of acid–base balance
Buffer systems 250; Respiratory system 251; Renal system 251, Assessment of acid–base balance 251
Acid–base imbalance
Compensation 253; The client with metabolic acidosis 253
INTERDISCIPLINARY CARE 256
NURSING CARE 256
The client with metabolic alkalosis 257
INTERDISCIPLINARY CARE 258
NURSING CARE 258
The client with respiratory acidosis 259
INTERDISCIPLINARY CARE 260
NURSING CARE 261
The client with respiratory alkalosis 262
INTERDISCIPLINARY CARE 263
NURSING CARE 263

CHAPTER 11 Nursing care of clients experiencing trauma and shock 266
The client experiencing trauma 267
Components of trauma 267; Types of trauma 268
Violence and the older adult 268
Effects of traumatic injury 268
INTERDISCIPLINARY CARE 272
NURSING CARE 277
The client experiencing shock 280
Overview of cellular homeostasis and haemodynamics 280; Pathophysiology 280; Types of shock 284
INTERDISCIPLINARY CARE 288
NURSING CARE 291

CHAPTER 12 Nursing care of clients with infections 298
Overview of the immune system 299
Immune system components 299; Nonspecific inflammatory response 304; Specific immune response 307; The client with natural or acquired immunity 310
INTERDISCIPLINARY CARE 312
NURSING CARE 314
Normal immune responses 316
The client with tissue inflammation 316; Pathophysiology of tissue inflammation 316
INTERDISCIPLINARY CARE 318
NURSING CARE 320
The client with an infection 323
INTERDISCIPLINARY CARE 327
NURSING CARE 336

CHAPTER 13 Nursing care of clients with altered immunity 341
Overview of the immune system 342
Changes in immune function in the older adult 343
Assessment of altered immune system function 344
Health history 344; Physical assessment 344
Altered immune responses 344
The client with a hypersensitivity reaction 344
Pathophysiology 345
INTERDISCIPLINARY CARE 348
NURSING CARE 351
The client with an autoimmune disorder 353
Pathophysiology 353
INTERDISCIPLINARY CARE 354
NURSING CARE 355
The client with a tissue transplant 355
Pathophysiology 355
INTERDISCIPLINARY CARE 357
NURSING CARE 358
Impaired immune responses 362
The client with HIV infection 362
Incidence and prevalence 362; Pathophysiology and manifestations 363
INTERDISCIPLINARY CARE 368
NURSING CARE 372

CHAPTER 14 Nursing care of clients with cancer 382
Incidence and mortality 383
Risk factors 384
Pathophysiology 387
Normal cell growth 387; The cell cycle 387; Differentiation 387
Aetiology 388
Theories of carcinogenesis 388; Known carcinogens 388; Types of neoplasms 390; Characteristics of malignant cells 391; Tumour invasion and metastasis 391
Physiological and psychological effects of cancer 393
Disruption of function 393; Haematological alterations 393; Infection 394; Haemorrhage 394; Anorexia-cachexia syndrome 394; Paraneoplastic syndromes 394; Pain 395; Physical stress 395; Psychological stress 396
INTERDISCIPLINARY CARE 396
NURSING CARE 414

PART TWO NUTRITIONAL AND METABOLIC PATTERNS 432
UNIT 4 Responses to altered integumentary structure and function 433

CHAPTER 15 Assessing clients with integumentary disorders 434
Anatomy, physiology and functions of the integumentary system 435
The skin 435; Skin appendages 437; The hair 437; The nails 437
Assessing the integumentary system 438
Health assessment interview 438; Physical assessment 441; Diagnostic tests 442; Genetic considerations 444

CHAPTER 16 Nursing care of clients with integumentary disorders 452
Common skin problems and lesions 453
The client with pruritus 453
The client with dry skin (xerosis) 453
The client with benign skin lesions 454
Cysts 455; Hypertrophic scar 455; Keloids 455; Naevi 456; Angiomas 456; Skin tags 456; Keratoses 456

The client with hypoparathyroidism 559
Pathophysiology and manifestations 559
INTERDISCIPLINARY CARE 560
NURSING CARE 560
Disorders of the adrenal glands 560
The client with hypercortisolism (Cushing's syndrome)
Pathophysiology 560; Manifestations 561
INTERDISCIPLINARY CARE 561
NURSING CARE 562
The client with chronic adrenocortical insufficiency
(Addison's disease)
Pathophysiology 565; Manifestations 565; Addisonian crisis 565
INTERDISCIPLINARY CARE 566
NURSING CARE 566
The client with pheochromocytoma 569
Disorders of the pituitary gland 569
The client with disorders of the anterior pituitary gland
Pathophysiology and manifestations 569
INTERDISCIPLINARY CARE 570
NURSING CARE 570
The client with disorders of the posterior pituitary gland
Pathophysiology and manifestations 571
INTERDISCIPLINARY CARE 571
NURSING CARE 571
CHAPTER 20 Nursing care of clients with diabetes mellitus 574
Incidence and prevalence 576
Overview of endocrine pancreatic hormones and glucose homeostasis
Hormones 576; Blood glucose homeostasis 577
Pathophysiology of diabetes 577
Type 1 diabetes 578; Type 2 diabetes 579;
Diabetes in the older adult 580
INTERDISCIPLINARY CARE 580
NURSING CARE 580
Complications of diabetes 598
Acute complications: Alterations in blood glucose levels 598;
Chronic complications 603
NURSING CARE 607

VOLUME 2
UNIT 6 Responses to altered nutrition 619
CHAPTER 21 Assessing clients with nutritional and gastrointestinal disorders 620
Nutrients 621
Carbohydrates 621; Proteins 622; Fats (lipids) 622;
Vitamins 624; Minerals 624; Dietary fibre 624;
Anatomy, physiology and functions of the gastrointestinal system 626
The mouth 626; The pharynx 626; The oesophagus 626;
The stomach 627; The small intestine 628; The accessory digestive organs 628
Metabolism 629
Assessing nutritional status and gastrointestinal function 631
Health assessment interview 629; Physical assessment 631; Diagnostic tests 631; Genetic considerations 636
CHAPTER 22 Nursing care of clients with nutritional disorders 645
The client with obesity 646
Incidence and prevalence 646; Risk factors 646;
Overview of normal physiology 647;
Pathophysiology 647
INTERDISCIPLINARY CARE 648
NURSING CARE 653
The client with malnutrition 655
Incidence and prevalence 655; Risk factors 655;
Pathophysiology 655
INTERDISCIPLINARY CARE 656
NURSING CARE 663
The client with an eating disorder 664
Anorexia nervosa 664; Bulimia nervosa 664;
Binge-eating disorder 665
INTERDISCIPLINARY CARE 665
NURSING CARE 666
CHAPTER 23 Nursing care of clients with upper gastrointestinal disorders 669
Disorders of the mouth 670
The client with stomatitis 670
Pathophysiology and manifestations 670
INTERDISCIPLINARY CARE 671
NURSING CARE 671
The client with oral cancer 673
Pathophysiology and manifestations 673
INTERDISCIPLINARY CARE 674
NURSING CARE 674
Disorders of the oesophagus 676
The client with gastro-oesophageal reflux disease 676
Pathophysiology 677; Manifestations 677
INTERDISCIPLINARY CARE 678
NURSING CARE 680
The client with hiatal hernia 680
The client with impaired oesophageal motility 681
The client with oesophageal cancer 681
Pathophysiology 681; Manifestations 682
INTERDISCIPLINARY CARE 682
NURSING CARE 683
Disorders of the stomach and duodenum 684
Overview of normal physiology 684
The client with nausea and vomiting 684
Pathophysiology 684
INTERDISCIPLINARY CARE 685
NURSING CARE 685
The client with gastrointestinal bleeding 686
Pathophysiology 687
INTERDISCIPLINARY CARE
NURSING CARE
The client with gastritis 689
Pathophysiology 689
INTERDISCIPLINARY CARE
NURSING CARE
The client with peptic ulcer disease 692
Risk factors 692; Pathophysiology 692;
Manifestations 693; Complications 693;
Zollinger-Ellison syndrome 696
INTERDISCIPLINARY CARE
NURSING CARE
The client with cancer of the stomach 700
Risk factors 700; Pathophysiology 700;
Manifestations 700
INTERDISCIPLINARY CARE
NURSING CARE
CHAPTER 24 Nursing care of clients with gallbladder,
liver and pancreatic disorders 708
Gallbladder disorders 709
The client with gallstones
Physiology review 709; Pathophysiology and manifestations 709
INTERDISCIPLINARY CARE
NURSING CARE
The client with cancer of the gallbladder 715
Liver disorders 715
Physiology review 715; Common manifestations of liver disorders 715
The client with hepatitis 716
Pathophysiology and manifestations 716
INTERDISCIPLINARY CARE
NURSING CARE
The client with cirrhosis 722
Pathophysiology 722; Manifestations and complications 722
INTERDISCIPLINARY CARE
NURSING CARE
The client with cancer of the liver 734
Pathophysiology 735; Manifestations 735
INTERDISCIPLINARY CARE
NURSING CARE
The client with liver trauma 735
Pathophysiology and manifestations 736
INTERDISCIPLINARY CARE
NURSING CARE
The client with liver abscess 736
Pathophysiology and manifestations 736
INTERDISCIPLINARY CARE
NURSING CARE
Exocrine pancreas disorders 737
The client with pancreatitis
Physiology review 737; Pathophysiology 737
CHAPTER 25 Assessing clients with bowel elimination disorders 751
Anatomy, physiology and functions of the intestines 752
The small intestine 752; The large intestine 752
Assessing bowel function 753
Health assessment interview 753; Physical assessment 755;
Diagnostic tests 756; Genetic considerations 756; Cultural considerations 756
CHAPTER 26 Nursing care of clients with bowel disorders 764
Disorders of intestinal motility 765
The client with diarrhoea
Pathophysiology 765; Manifestations 765;
Complications 765
INTERDISCIPLINARY CARE
NURSING CARE
The client with constipation 769
Pathophysiology 769; Manifestations 769
INTERDISCIPLINARY CARE
NURSING CARE
The client with irritable bowel syndrome 775
Pathophysiology 775; Manifestations 775
INTERDISCIPLINARY CARE
NURSING CARE
The client with faecal incontinence 777
Pathophysiology 777
INTERDISCIPLINARY CARE
NURSING CARE
Acute inflammatory and infectious bowel disorders 779
The client with appendicitis 780
Pathophysiology 780; Manifestations 780;
Complications 780
INTERDISCIPLINARY CARE
NURSING CARE
The client with peritonitis 783
Pathophysiology 783; Manifestations 783;
Complications 784
INTERDISCIPLINARY CARE
NURSING CARE
The client with gastroenteritis 787
Pathophysiology 787; Manifestations 788;
Complications 788
INTERDISCIPLINARY CARE
NURSING CARE
The client with a protozoal bowel infection 794
Pathophysiology and manifestations 794
INTERDISCIPLINARY CARE 795
NURSING CARE 795
The client with a helminthic disorder 797
Pathophysiology 797
INTERDISCIPLINARY CARE 797
NURSING CARE 799
Chronic inflammatory bowel disorders 799
The client with inflammatory bowel disease 799
Ulcerative colitis 800; Crohn's disease 803
INTERDISCIPLINARY CARE 804
NURSING CARE 810
Malabsorption syndromes 813
The client with sprue 814
Pathophysiology 814
INTERDISCIPLINARY CARE 815
NURSING CARE 815
The client with lactase deficiency 816
Manifestations 816
INTERDISCIPLINARY CARE 817
NURSING CARE 817
The client with short bowel syndrome 817
INTERDISCIPLINARY CARE 817
NURSING CARE 817
Neoplastic disorders 818
The client with polyps 818
Pathophysiology 818; Manifestations 819
INTERDISCIPLINARY CARE 819
NURSING CARE 819
The client with colorectal cancer 819
Pathophysiology 820; Manifestations 820; Complications 821
INTERDISCIPLINARY CARE 821
NURSING CARE 824
Structural and obstructive bowel disorders 827
The client with a hernia 827
Pathophysiology 828; Manifestations 828; Complications 828
INTERDISCIPLINARY CARE 829
NURSING CARE 829
The client with intestinal obstruction 829
Pathophysiology 829
INTERDISCIPLINARY CARE 831
NURSING CARE 832
The client with diverticular disease 833
Pathophysiology 834
INTERDISCIPLINARY CARE 834
NURSING CARE 835
Anorectal disorders 836
The client with haemorrhoids 836
Pathophysiology and manifestations 836
INTERDISCIPLINARY CARE 837
NURSING CARE 838
The client with an anorectal lesion 838
Anal fissure 839; Anorectal abscess 839; Anorectal fistula 839; Pilonidal disease 839
NURSING CARE 839
UNIT 8 Responses to altered urinary elimination disorders 845
CHAPTER 27 Assessing clients with urinary elimination disorders 846
Anatomy, physiology and functions of the urinary system 847
The kidneys 847; The ureters 852; The urinary bladder 852; The urethra 852
Assessing urinary system function 852
Health assessment interview 853; Physical assessment 853; Diagnostic tests 855; Genetic considerations 856
CHAPTER 28 Nursing care of clients with urinary tract disorders 863
The client with a urinary tract infection 864
Risk factors 864; Physiology review 865; Pathophysiology and manifestations 865
INTERDISCIPLINARY CARE 867
NURSING CARE 870
The client with urinary calculi 872
Incidence and risk factors 873; Physiology review 874; Pathophysiology 874; Manifestations 874; Complications 875
INTERDISCIPLINARY CARE 875
NURSING CARE 877
The client with a urinary tract tumour 880
Incidence and risk factors 880; Pathophysiology 880; Manifestations 881
INTERDISCIPLINARY CARE 881
NURSING CARE 882
The client with urinary retention 887
Physiology review 887; Pathophysiology 887; Manifestations 887
INTERDISCIPLINARY CARE 888
NURSING CARE 888
The client with neurogenic bladder 888
Pathophysiology 888
INTERDISCIPLINARY CARE 889
NURSING CARE 890
The client with urinary incontinence 891
Incidence and prevalence 891; Pathophysiology 891
INTERDISCIPLINARY CARE 893
NURSING CARE 895
CHAPTER 29 Nursing care of clients with kidney disorders 900
Renal insufficiency: Towards a new understanding 901
Age-related changes in kidney function 901
The client with acute kidney injury 902
Incidence and risk factors 902; Physiology review 903; Pathophysiology 903; Clinical course and manifestations of acute kidney injury 908;
Diagnostics 908
PART FOUR

UNIT 9 Responses to altered cardiac function 952

CHAPTER 30 Assessing clients with cardiac disorders 953
Anatomy, physiology and functions of the heart 954
The pericardium 954; Layers of the heart wall 954; Chambers and valves of the heart 954; Systemic, pulmonary and coronary circulation 956; The cardiac cycle and cardiac output 957; The conduction system of the heart 959; The action potential 960

Assessing cardiac function 961
Health assessment interview 962; Physical assessment 962; Diagnostic tests 964; Genetic considerations 971

CHAPTER 31 Nursing care of clients with coronary heart disease 976
Disorders of myocardial perfusion 977
The client with coronary heart disease 977
Incidence and prevalence 977; Physiology review 978; Pathophysiology 978; Risk factors 979
INTERDISCIPLINARY CARE 984
NURSING CARE 984
The client with angina pectoris 987
Pathophysiology 987; Course and manifestations 987

CHAPTER 32 Nursing care of clients with cardiac disorders 1037
Heart failure 1038
The client with heart failure 1038
Incidence, prevalence and risk factors 1038; Physiology review 1039; Pathophysiology 1039; Classifications and manifestations of heart failure 1041; Complications 1043
INTERDISCIPLINARY CARE 1043
NURSING CARE 1047
The client with pulmonary oedema 1051
Pathophysiology 1051; Manifestations 1051
INTERDISCIPLINARY CARE 1051
NURSING CARE 1052
Inflammatory heart disorders 1053
The client with rheumatic fever and rheumatic heart disease 1053
Incidence, prevalence and risk factors 1053; Pathophysiology 1053; Manifestations 1054
INTERDISCIPLINARY CARE 1054
NURSING CARE 1055
The client with infective endocarditis 1056
Incidence and risk factors 1057; Pathophysiology 1057; Manifestations 1057; Complications 1058
INTERDISCIPLINARY CARE 1058
NURSING CARE 1058
The client with myocarditis 1060
Incidence and risk factors 1060; Pathophysiology 1060; Manifestations 1060
INTERDISCIPLINARY CARE 1060
NURSING CARE 1060
The client with pericarditis 1061
Pathophysiology 1061; Manifestations 1061; Complications 1061
INTERDISCIPLINARY CARE 1063
NURSING CARE 1063
Disorders of cardiac structure 1065
The client with valvular heart disease
Physiology review 1065; Pathophysiology 1065
INTERDISCIPLINARY CARE 1071
NURSING CARE 1072
The client with cardiomyopathy
Pathophysiology 1075
INTERDISCIPLINARY CARE 1077
NURSING CARE 1078

UNIT 10 Responses to altered peripheral tissue perfusion 1083

CHAPTER 33 Assessing clients with haematological, peripheral vascular and lymphatic disorders 1084
Anatomy, physiology and functions of the haematological system
Red blood cells 1085; Red blood cell production and regulation 1085; Red blood cell destruction 1085; White blood cells 1085; Platelets 1088; Haemostasis 1088
Anatomy, physiology and functions of the peripheral vascular system
Structure of blood vessels 1089; Physiology of arterial circulation 1091; Factors influencing arterial blood pressure 1091
Anatomy, physiology and functions of the lymphatic system
Assessing haematological, peripheral vascular and lymphatic function
Health assessment interview 1095; Physical assessment 1097; Diagnostic tests 1098; Genetic considerations 1100

CHAPTER 34 Nursing care of clients with haematological disorders 1110
Red blood cell disorders
The client with anaemia
Physiology review 1111; Pathophysiology and manifestations 1111
INTERDISCIPLINARY CARE 1119
NURSING CARE 1122
The client with myelodysplastic syndrome
Pathophysiology 1124; Manifestations 1124
INTERDISCIPLINARY CARE 1124
NURSING CARE 1125
The client with polycythaemia
Pathophysiology 1126
INTERDISCIPLINARY CARE 1127
NURSING CARE 1127
White blood cell and lymphoid tissue disorders
The client with leukaemia
Incidence and risk factors 1127; Physiology review 1127; Pathophysiology 1128; Manifestations 1128; Classifications 1128
INTERDISCIPLINARY CARE 1132
NURSING CARE 1134

CHAPTER 35 Nursing care of clients with peripheral vascular disorders 1162
Disorders of blood pressure regulation
Physiology review 1163
The client with primary hypertension
Incidence and risk factors 1165; Pathophysiology 1167; Manifestations 1167; Complications 1167
INTERDISCIPLINARY CARE 1168
NURSING CARE 1174
The client with secondary hypertension
The client with hypertensive crisis
Disorders of the aorta and its branches
The client with an aneurysm
Pathophysiology and manifestations 1181
INTERDISCIPLINARY CARE 1184
NURSING CARE 1185
Disorders of the peripheral arteries
Physiology review 1187
The client with peripheral vascular disease
Incidence and risk factors 1187; Pathophysiology 1187; Manifestations and complications 1188
INTERDISCIPLINARY CARE 1188
NURSING CARE 1190
UNIT II Responses to altered respiratory function 1219

CHAPTER 36 Assessing clients with respiratory disorders 1220
Anatomy, physiology and functions of the respiratory system 1220
The upper respiratory system 1221; The lower respiratory system 1222
Factors affecting ventilation and respiration 1224
Respiratory volume and capacity 1224; Air pressures 1225; Oxygen, carbon dioxide and hydrogen ion concentrations 1226; Airway resistance, lung compliance and elasticity 1226; Alveolar surface tension 1226
Blood gases 1227
Oxygen transport and unloading 1227; Carbon dioxide transport 1228

Assessing respiratory function 1228
Health assessment interview 1228; Physical assessment 1228; Diagnostic tests 1230; Genetic considerations 1233

CHAPTER 37 Nursing care of clients with upper respiratory disorders 1239
Infectious or inflammatory disorders 1240
The client with viral upper respiratory tract infection 1240
Pathophysiology 1240; Manifestations and complications 1240
INTERDISCIPLINARY CARE 1241
NURSING CARE 1241
The client with respiratory syncytial virus 1242
The client with influenza 1243
Pathophysiology 1243; Manifestations 1244; Complications 1244
INTERDISCIPLINARY CARE 1244
NURSING CARE 1245
The client with sinusitis 1246
Physiology review 1246; Pathophysiology 1246; Manifestations and complications 1246
INTERDISCIPLINARY CARE 1247
NURSING CARE 1247
The client with pharyngitis or tonsillitis 1248
Pathophysiology and manifestations 1248; Complications 1249
INTERDISCIPLINARY CARE 1249
NURSING CARE 1250
The client with a laryngeal infection 1251
Epiglottitis 1251; Laryngitis 1251
The client with pertussis 1251
Pathophysiology 1251; Manifestations 1252
INTERDISCIPLINARY CARE 1252
NURSING CARE 1252
Upper respiratory trauma or obstruction 1253
The client with epistaxis 1253
Pathophysiology and manifestations 1253
INTERDISCIPLINARY CARE 1253
NURSING CARE 1254
The client with nasal trauma or surgery 1255
Pathophysiology and manifestations 1255; Complications 1255
INTERDISCIPLINARY CARE 1256
NURSING CARE 1256
The client with laryngeal obstruction or trauma 1258
Pathophysiology and manifestations 1258
INTERDISCIPLINARY CARE 1258
NURSING CARE 1259
The client with obstructive sleep apnoea 1259
Risk factors 1259; Pathophysiology 1259; Manifestations 1259; Complications 1259
INTERDISCIPLINARY CARE 1260
NURSING CARE 1260
Upper respiratory tumours 1261
CHAPTER 38 Nursing care of clients with ventilation disorders

Infections and inflammatory disorders

The client with acute bronchitis
  Pathophysiology and manifestations 1275
  INTERDISCIPLINARY CARE 1275
  NURSING CARE 1276

The client with pneumonia
  Physiology review 1277; Pathophysiology 1277; Lifespan considerations 1277
  INTERDISCIPLINARY CARE 1280
  NURSING CARE 1283

The client with severe acute respiratory syndrome

The client with lung abscess
  Pathophysiology and manifestations 1287
  INTERDISCIPLINARY CARE 1287
  NURSING CARE 1288

The client with tuberculosis
  Incidence and prevalence 1289; Risk factors 1289; Pathophysiology 1289
  INTERDISCIPLINARY CARE 1291
  NURSING CARE 1294

The client with a fungal infection
  INTERDISCIPLINARY CARE 1297
  NURSING CARE 1298

Disorders of the pleura

The client with pleuritis

The client with a pleural effusion
  Pathophysiology and manifestations 1299
  INTERDISCIPLINARY CARE 1299
  NURSING CARE 1300

The client with pneumothorax
  Pathophysiology 1300
  INTERDISCIPLINARY CARE 1302
  NURSING CARE 1303

The client with haemothorax

Trauma of the chest or lung

The client with a thoracic injury
  Pathophysiology and manifestations 1306
  INTERDISCIPLINARY CARE 1307
  NURSING CARE 1307

The client with inhalation injury
  Pathophysiology and manifestations 1308
  INTERDISCIPLINARY CARE 1310

NURSING CARE

Lung cancer

The client with lung cancer
  Incidence and risk factors 1312; Pathophysiology 1312; Manifestations 1312; Complications and course 1312
  INTERDISCIPLINARY CARE 1313
  NURSING CARE 1316

CHAPTER 39 Nursing care of clients with gas exchange disorders

Reactive airway disorders

The client with asthma
  Incidence and risk factors 1324; Physiology review 1325; Pathophysiology 1325; Manifestations and complications 1326
  INTERDISCIPLINARY CARE 1327
  NURSING CARE 1328

The client with chronic obstructive pulmonary disease
  Incidence and risk factors 1336; Pathophysiology 1336; Manifestations 1338
  INTERDISCIPLINARY CARE 1338
  NURSING CARE 1343

The client with cystic fibrosis
  Incidence and prevalence 1347; Pathophysiology 1347; Manifestations 1348
  INTERDISCIPLINARY CARE 1349
  NURSING CARE 1349

The client with atelectasis

The client with bronchiectasis

Interstitial pulmonary disorders

The client with an occupational lung disease 1351
  Physiology review 1352; Pathophysiology and manifestations 1352
  INTERDISCIPLINARY CARE 1352
  NURSING CARE 1353

The client with sarcoidosis

Pulmonary vascular disorders

The client with pulmonary embolism
  Incidence and risk factors 1354; Physiology review 1354; Pathophysiology 1354; Manifestations 1355
  INTERDISCIPLINARY CARE 1355
  NURSING CARE 1356

The client with pulmonary hypertension
  Pathophysiology 1359; Manifestations 1359; Complications 1359
  INTERDISCIPLINARY CARE 1359
  NURSING CARE 1362

Respiratory failure

The client with acute respiratory failure
  Pathophysiology 1362; Manifestations and course 1363
  INTERDISCIPLINARY CARE 1363
  NURSING CARE 1370
The client with acute respiratory distress syndrome
Pathophysiology 1374; Manifestations 1374
INTERDISCIPLINARY CARE
NURSING CARE

UNIT 12 Responses to altered musculoskeletal function

CHAPTER 40 Assessing clients with musculoskeletal disorders
Anatomy, physiology and functions of the musculoskeletal system
The skeleton 1385; Muscles 1387; Joints, ligaments and tendons 1390
Assessing musculoskeletal function
Health assessment interview 1391; Physical assessment 1391; Diagnostic tests 1393; Genetic considerations 1396

CHAPTER 41 Nursing care of clients with musculoskeletal trauma
Traumatic injuries of the muscles, ligaments and joints 1404
The client with a contusion, strain or sprain
Pathophysiology and manifestations 1404
INTERDISCIPLINARY CARE
NURSING CARE
The client with a joint dislocation
Pathophysiology 1406; Manifestations 1406
INTERDISCIPLINARY CARE
NURSING CARE
Traumatic injuries of bones 1406
The client with a fracture
Pathophysiology 1406; Fracture healing 1407; Manifestations 1410; Complications 1410
INTERDISCIPLINARY CARE
Fractures of specific bones or bony areas 1417
NURSING CARE
The client with an amputation
Causes of amputation 1426; Levels of amputation 1426; Types of amputation 1426; Amputation site healing 1426; Complications 1427
INTERDISCIPLINARY CARE
NURSING CARE
The client with a repetitive use injury
Pathophysiology 1431
INTERDISCIPLINARY CARE
NURSING CARE

CHAPTER 42 Nursing care of clients with musculoskeletal disorders
Metabolic bone disorders 1437
The client with osteoporosis
Risk factors 1437; Pathophysiology 1439; Manifestations 1439; Complications 1440
INTERDISCIPLINARY CARE
NURSING CARE
The client with Paget’s disease 1445
Pathophysiology 1445; Manifestations 1445; Complications 1445
INTERDISCIPLINARY CARE
NURSING CARE

The client with gout
Pathophysiology 1448; Manifestations 1448; Complications 1449
INTERDISCIPLINARY CARE
NURSING CARE
The client with osteomalacia
Pathophysiology 1452; Manifestations 1453
INTERDISCIPLINARY CARE
NURSING CARE
Degenerative disorders 1454
The client with osteoarthritis
Risk factors 1454; Pathophysiology 1455; Manifestations 1455; Complications 1455
INTERDISCIPLINARY CARE
NURSING CARE
The client with muscular dystrophy
Pathophysiology 1462; Manifestations 1462
INTERDISCIPLINARY CARE
NURSING CARE
Autoimmune and inflammatory disorders 1463
The client with rheumatoid arthritis
Pathophysiology 1464; Joint manifestations 1464; Extra-articular manifestations 1465; Increased risk of coronary heart disease 1465
INTERDISCIPLINARY CARE
NURSING CARE
The client with ankylosing spondylitis
Pathophysiology 1473; Manifestations 1474
INTERDISCIPLINARY CARE
NURSING CARE
The client with reactive arthritis
Manifestations 1474
INTERDISCIPLINARY CARE
NURSING CARE
The client with systemic lupus erythematosus
Pathophysiology 1475; Manifestations 1475
INTERDISCIPLINARY CARE
NURSING CARE
The client with polymyositis
Manifestations 1480
INTERDISCIPLINARY CARE
NURSING CARE
The client with osteomyelitis
Pathophysiology 1481; Manifestations 1482
INTERDISCIPLINARY CARE
NURSING CARE
The client with septic arthritis
Pathophysiology 1484; Manifestations 1484
INTERDISCIPLINARY CARE
NURSING CARE
Neoplastic disorders 1485
The client with bone tumours 1485
Pathophysiology 1485; Manifestations 1486
INTERDISCIPLINARY CARE 1486
NURSING CARE 1487

Connective tissue disorders 1487
The client with systemic sclerosis (scleroderma) 1488
Pathophysiology 1488; Manifestations 1488
INTERDISCIPLINARY CARE 1488
NURSING CARE 1489

The client with Sjögren’s syndrome 1489
Pathophysiology 1489
INTERDISCIPLINARY CARE 1490
NURSING CARE 1490
The client with fibromyalgia 1490
Pathophysiology 1490; Manifestations 1490
INTERDISCIPLINARY CARE 1490
NURSING CARE 1491

Structural disorders 1491
The client with spinal deformities 1491
Pathophysiology 1491
INTERDISCIPLINARY CARE 1492
NURSING CARE 1492
The client with low back pain 1493
Pathophysiology 1493; Manifestations 1494
INTERDISCIPLINARY CARE 1494
NURSING CARE 1494

The client with common foot disorders 1495
Pathophysiology 1495
INTERDISCIPLINARY CARE 1496
NURSING CARE 1496

PART FIVE
COGNITIVE AND PERCEPTUAL PATTERNS 1502
UNIT 13 Responses to altered neurological function 1503
CHAPTER 43 Assessing clients with neurological disorders 1504
Anatomy, physiology and functions of the nervous system 1505
Nerve cells, action potentials and neurotransmitters 1505; The central nervous system 1506; The peripheral nervous system 1510; The autonomic nervous system 1512
Assessing neurological function 1513
Health assessment interview 1513; Physical assessment 1514; Diagnostic tests 1515; Genetic considerations 1519

CHAPTER 44 Nursing care of clients with intracranial disorders 1529
Altered cerebral function 1530
The client with altered level of consciousness 1530
Pathophysiology 1530; Prognosis 1534
INTERDISCIPLINARY CARE 1534
NURSING CARE 1536
The client with increased intracranial pressure 1538
Pathophysiology 1538; Manifestations 1538; Cerebral oedema 1539; Hydrocephalus 1539; Brain herniation 1540
INTERDISCIPLINARY CARE 1540
NURSING CARE 1543
The client with a headache 1544
Pathophysiology 1544
INTERDISCIPLINARY CARE 1546
NURSING CARE 1548
The client with epilepsy 1550
Incidence and prevalence 1550; Pathophysiology 1551; Manifestations 1551
INTERDISCIPLINARY CARE 1552
NURSING CARE 1554
Traumatic brain injury 1556
The client with a skull fracture 1557
Pathophysiology 1557
INTERDISCIPLINARY CARE 1558
NURSING CARE 1558
The client with a focal or diffuse traumatic brain injury 1558
Pathophysiology 1558
INTERDISCIPLINARY CARE 1562
NURSING CARE 1563
Central nervous system infections 1566
The client with a central nervous system infection 1566
Pathophysiology 1566
INTERDISCIPLINARY CARE 1568
NURSING CARE 1569
Tumours of the brain 1571
The client with a brain tumour 1571
Incidence and prevalence 1571; Pathophysiology 1571; Manifestations 1573
INTERDISCIPLINARY CARE 1573
NURSING CARE 1574
CHAPTER 45 Nursing care of patients with cerebrovascular and spinal cord disorders 1581
Cerebrovascular disorders 1582
The patient with a stroke 1582
Incidence and prevalence 1582; Risk factors 1582; Pathophysiology 1583; Manifestations 1585; Complications 1585
INTERDISCIPLINARY CARE 1587
NURSING CARE 1589
The patient with an intracranial aneurysm 1595
Incidence and prevalence 1595; Pathophysiology 1595; Manifestations 1596; Complications 1596
INTERDISCIPLINARY CARE 1596
NURSING CARE 1597
The patient with an arteriovenous malformation 1598
Pathophysiology 1598
INTERDISCIPLINARY CARE 1598
NURSING CARE 1598
Spinal cord disorders 1599
Detailed Contents

The patient with a spinal cord injury 1599
Incidence and prevalence 1599; Risk factors 1599; Pathophysiology 1599; Manifestations 1600; Complications 1602
INTERDISCIPLINARY CARE 1602
NURSING CARE 1605

The patient with a herniated intervertebral disc 1610
Incidence and prevalence 1610; Pathophysiology 1610; Lumbar disc manifestations 1611; Cervical disc manifestations 1611
INTERDISCIPLINARY CARE 1611
NURSING CARE 1612

The patient with a spinal cord tumour 1614
Classification 1614; Pathophysiology 1615; Manifestations 1615
INTERDISCIPLINARY CARE 1616
NURSING CARE 1616

CHAPTER 46 Nursing care of clients with neurological disorders 1620
Degenerative neurological disorders 1621
Dementia 1621
The client with Alzheimer’s disease 1622
Incidence and prevalence 1622; Risk factors and warning signs 1622; Pathophysiology 1622; Manifestations 1624
INTERDISCIPLINARY CARE 1624
NURSING CARE 1626
The client with multiple sclerosis 1630
Incidence and prevalence 1630; Pathophysiology 1630; Manifestations 1630
INTERDISCIPLINARY CARE 1631
NURSING CARE 1636
The client with Parkinson’s disease 1638
Incidence and prevalence 1638; Pathophysiology 1638; Manifestations 1639; Complications 1640
INTERDISCIPLINARY CARE 1640
NURSING CARE 1641
The client with Huntington’s disease 1646
Pathophysiology 1646; Manifestations 1646
INTERDISCIPLINARY CARE 1647
NURSING CARE 1647
The client with motor neuron disease 1648
Pathophysiology 1649; Manifestations 1649
INTERDISCIPLINARY CARE 1649
NURSING CARE 1650
Peripheral nervous system disorders 1651
The client with myasthenia gravis 1651
Pathophysiology 1651; Manifestations 1651; Complications 1652
INTERDISCIPLINARY CARE 1652
NURSING CARE 1654
The client with Guillain-Barré syndrome 1656
Pathophysiology 1656; Manifestations 1657
INTERDISCIPLINARY CARE 1657
NURSING CARE 1658

Cranial nerve disorders 1659
The client with trigeminal neuralgia 1659
Pathophysiology 1659; Manifestations 1659
INTERDISCIPLINARY CARE 1659
NURSING CARE 1660
The client with Bell’s palsy 1661
Pathophysiology 1661; Manifestations 1661
INTERDISCIPLINARY CARE 1662
NURSING CARE 1662
Disorders resulting from infections and neurotoxins 1662
The client with Creutzfeldt-Jakob disease 1662
Pathophysiology 1662; Manifestations 1662
INTERDISCIPLINARY CARE 1663
NURSING CARE 1663
The client with postpoliomyelitis syndrome 1663
Pathophysiology 1663; Manifestations 1663
INTERDISCIPLINARY CARE 1663
NURSING CARE 1663
The client with rabies 1664
Pathophysiology 1664; Manifestations 1664
INTERDISCIPLINARY CARE 1664
NURSING CARE 1664
The client with tetanus 1665
Pathophysiology 1665; Manifestations 1665
INTERDISCIPLINARY CARE 1665
NURSING CARE 1665
The client with botulism 1666
Pathophysiology 1666; Manifestations 1666
INTERDISCIPLINARY CARE 1666
NURSING CARE 1666

UNIT 14 Responses to altered visual and auditory function 1672

CHAPTER 47 Assessing clients with eye and ear disorders 1673
Anatomy, physiology and functions of the eyes 1674
Extraocular structures 1674; Intraocular structures 1674; The visual pathway 1676; Refraction 1677
Assessing the eyes 1677
Health assessment interview 1677; Physical assessment of the eyes and vision 1678; Diagnostic tests 1679; Genetic considerations 1680;
Anatomy, physiology and functions of the ears 1684
The external ear 1684; The middle ear 1686; The inner ear 1687; Sound conduction 1687; Equilibrium 1687
Assessing the ears 1687
Health assessment interview 1687; Physical assessment of the ears and hearing 1688; Diagnostic tests 1688; Genetic considerations 1689

CHAPTER 48 Nursing care of clients with eye and ear disorders 1696
Eye disorders 1697
The client with conjunctivitis 1697
PART SIX
SEXUALITY AND REPRODUCTIVE PATTERNS 1743

UNIT 15 Responses to altered reproductive function 1744

CHAPTER 49 Assessing clients with reproductive system and breast disorders 1745

Anatomy, physiology and functions of the male reproductive system 1746
The breasts 1746; The penis 1746; The scrotum 1746; The testes 1746; The ducts and semen 1746; The prostate gland 1747; Spermatogenesis 1747; Male sex hormones 1747
Assessing the male reproductive system 1748
Health assessment interview 1748; Physical assessment 1749; Diagnostic tests 1749; Genetic considerations 1751

Anatomy, physiology and functions of the female reproductive system 1753
The breasts 1753; The external genitalia 1754; The internal organs 1754; Female sex hormones 1755; Oogenesis and the ovarian cycle 1756; The menstrual cycle 1756
Assessing the female reproductive system 1756
Health assessment interview 1757; Physical assessment 1759; Diagnostic tests 1759; Genetic considerations 1760

CHAPTER 50 Nursing care of men with reproductive system and breast disorders 1770
Disorders of male sexual function 1771
The man with erectile dysfunction 1771
Pathophysiology 1771
INTERDISCIPLINARY CARE 1771
NURSING CARE 1771
The man with ejaculatory dysfunction 1772
Pathophysiology 1771
INTERDISCIPLINARY CARE 1772
NURSING CARE 1772
The man with retrograde ejaculation 1774
Pathophysiology 1771
INTERDISCIPLINARY CARE 1774
NURSING CARE 1774
MyNursingKit is an invaluable student resource accompanying Medical-Surgical Nursing: Critical Thinking in Client Care. It enhances student learning and understanding of core concepts via a range of interactive, online revision tools.

Resources available with MyNursingKit include:

**Study Plan**
- Multiple-choice questions with links to the eText
- Critical Thinking questions
- Clinical Scenario questions
- Web links

**Multimedia**
- Audio handover simulations that bring to life the end-of-unit Clinical Scenarios and case studies from the text. These are accompanied by comprehension and application exercises
- Pearson eText with embedded multimedia, as well as the ability to bookmark and add your own notes
- Glossary Flashcards featuring key terms and definitions from the textbook

**Instructor Resources**
The full suite of instructor resources is also available for lecturers in MyNursingKit
